

Michael Kim

Frontend / Full-Stack Developer

Los Angeles, CA | michael.yeob@gmail.com | 213-589-8594

Portfolio: michaelkimdev.com | GitHub: github.com/ChanYeob1202

PROFESSIONAL SUMMARY

Frontend-focused developer with experience building and deploying production-ready web applications using React and Next.js. Proven ability to translate business requirements into user-focused technical solutions through real-world commercial projects.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Firebase, Strapi (Headless CMS)

Tools: Git, GitHub, VS Code, Vercel

TECHNICAL PROJECTS

Video Streaming Platform

- Built full-stack video streaming application using Next.js 15 and TypeScript with server-side rendering
- Implemented data layer architecture following repository pattern to separate API logic from UI components
- Integrated YouTube Data API with error handling and rate limiting for video content
- Developed responsive grid layouts and dynamic routing using Next.js App Router

Cafe Website - Live Commercial Project

- Developed and deployed a single-page application for a live commercial cafe using React.js and Tailwind CSS
- Built a fully responsive, mobile-friendly interface optimized for customer engagement across all devices
- Integrated cafe information including menu, hours, location, and contact details in an intuitive layout
- Implemented GA4 (gtag.js) + custom event tracking to measure conversion actions (e.g., “Order Online” clicks).
- Improved accessibility and performance using Lighthouse audits, including adding accessible names for icon-only controls and addressing LCP/unused JS.

Unroasted - Online Coffee Community

- Developed a responsive community website for coffee enthusiasts using React.js and Tailwind CSS
- Implemented secure user authentication and authorization using Firebase Auth
- Integrated Strapi as a headless CMS for efficient content management and dynamic data delivery
- Designed and built a fully responsive interface optimized for seamless user experience across all devices
- Created community features enabling users to share coffee reviews, brewing techniques, and recommendations

Professional Experience

RNY Coffee Studio

Manager

Los Angeles, California

October, 2024 - Current

- Led development and deployment of a production React website serving live customers
- Translated operational and business requirements into scalable digital solutions
- Managed end-to-end cafe launch, including systems, staffing, and vendor coordination

Education

Springboard – Software Engineering Career Track (2020–2021)

University of California, Los Angeles (UCLA) – B.A. Asian Studies
